

Hydrophilic Bicomponent PP/PET Fiber

Layo has devoted to a continuously business of Hydrophilic Bicomponent PP/PET Fiber together with local Chinese manufacturers, Customers around the world who have been throwing orders of Hydrophilic Bicomponent PP/PET Fiber are also taking advantages of Layo's flexible order policy, professional international trade services, customized product solutions, all those have led to a results of profit maximization, good feedback from downstream customers.

For Layo **Hydrophilic Bicomponent PP/PET Fiber**, everyone has different special concerns about it, and what we do is to maximize the product requirements of each customer, so the quality of our **Hydrophilic Bicomponent PP/PET Fiber** has been well received by many customers and enjoyed a good reputation in many countries.

China based supplier of **Hydrophilic Bicomponent PP/PET Fiber**: sheath/core concentric structure based bicomponent fiber, with a property of low melting point sheath-Polypropylene and core material-Polyethylene Terephthalate, hydrophilic or durable (permanent hydrophilic) spin finish, by adding Tio₂ to raise the whiteness of fiber. It is a similar to PET/PE bico fiber, but sheath with PP material which offers a higher elasticity than PE sheath,

Product Technical Indicators

Standard TDS of 2den 38mm Standard **Hydrophilic Bicomponent PP/PET Fiber**

Characteristic	Unit	Min	Max	Test Method	Remark
Linear Density	dtex	2.2	2.46	GB/T14335-2008	
Cut length	mm	37	39	GB/T14336-2008	
Tenacity at peak	cn/dtex	2.3	3.08	GB/T6504-2017	
Elogation at peak	%	80	120	GB/T14337-2008	
Crimp n.	n./10mm	10.5	13.5	GB/T14328-2008	Adjustable
Spin finish	%	0.3	0.4	GB/T6504-2017	Adjustbale

Product Specification Details, And Precise Application

China based supplier of **Hydrophilic Bicomponent PP/PET Fiber** It is an ideal fiber for thermal bonding nonwoven fabrics which are widely used for hygiene products, such as femcare and baby care. Below the specification range:

Fiber denier: 2dn ~ 6dn,

Main cut length: 38mm or 51mm,

Luster: raw white/semi dull or full dull,

Spin finish: standard hydrophilic or durable(permanent hydrophilic),

Pigment available: green/blue/purple/camel etc
